

# 2017 SEEDLING SALE PREORDER FORM

## About Our Seedlings

The varieties we sell are the same ones we use, and have tested, in our field.

We start with the best seeds we can get and plant them in an organically certified, compost-based potting soil from Vermont Compost Company.

We love our seedlings. We think you will too.

**Preorders must be post-marked by Saturday, May 13th and are only available to Friends of the Farm. Not a Friend? Join on this order form.**

### Minimum order is \$20

All of our seedlings are hardened off. Most are ready for planting in your garden upon pick-up.

### Pick-up

**Saturday, May 20th or Sunday, May 21st between 11 am and 3 pm at the designated pickup table at the Seedling Sale.**

## Pricing and Selection

For our May Seedling Sale, we sell plants in a variety of ways: some plants in 6-packs, some in 4-packs, potatoes by the piece, and some herbs in individual 4" pots. This can make filling out the order form confusing. To help you make sense of it all we've divided the order form up into sections corresponding to each of these different ways of selling plants. Section 1 lists plants we grow in 6-packs. Section 2 lists plants we grow in 4-packs. Section 3 lists potatoes. And Section 4 lists herbs we grow in individual 4 inch pots.

At the top of each section we've placed instructions on how to order plants in that section. Please read these directions carefully as they're designed to help you complete your order correctly. At the end of the form you'll take the sub-totals from each section and add them up to come up with your Grand Total. There will also be place to join our Friend of the Farm program or simply make a donation to help support the educational and outreach missions of the farm.

## BECOME A FRIEND OF THE FARM TODAY!

### Benefits Include:

- Invitation to Friends-only events
- Discount on educational classes
- Seedling Sale preorder
- CSA eligibility
- Support for local farming and educational programming

### Instructions for Section 1:

This section lists plants we grow in 6-packs. While they are grown in 6-packs you are ordering **individual** plants. You **do not** need to buy six of anything; you are free to mix and match any plants from **within this section**. The catch is that the pricing for these plants is \$5 per 6-pack. At the bottom of this section you'll add up all the plants you've ordered and divide by 6 to determine the number of 6-packs. You are charged for all full **or partial** 6-packs, so you might as well fill them all up.

## Section 1

Crop	Variety	Days to Maturity	Description	# of Plants
Beets	Chioggia	55	Candy striped Italian heirloom. Thinly slice on salads.	
	Red Ace	50	Round red beet. Sweet and tender.	
Broccoli	Bay Meadow	60	Beautiful, blue-green heads. Performs well under stressful conditions.	
	Imperial	71	Most heat tolerant broccoli.	
Cabbage, Napa	Minuet	48	Chinese cabbage with light, sweet flavor for salads.	
Calendula	Princess Mix	50-55	Excellent mix of colors. High percentage of double and semi-double flowers.	
Cauliflower	Snow Crown	50	Extra-early and adaptable hybrid with unusual seedling vigor.	
Centaurea	Bachelor Buttons	65-75	Prolific blooms in blue, white, pink, dark purple/black, and bi-colors.	
Chard	Bright Lights	78	Rainbow chard!	
Cosmos	Sensation Mix	83	Single flowers, 3-4' across, in lavender, pink, magenta and white.	
Cutting Celery	Cutting Celery	80-85	Tastes like celery, but grows like parsley.	
Fennel	Orazio	80	Large, thick, rounded bulbs.	
Turnips	Hakurei	38	Sweet white salad turnip.	
Basil	Genovese	68	Extremely tender, fragrant, leaves and is superb for pesto.	
Cilantro	Calypso	53	A slow-bolting selection grown for its leaves.	
Dill	Superdukat	53	An Improved variety. Plants are uniform in height for easier leaf bunch harvesting.	

Kale	Red Russian	25/50	Smooth, very tender green leaves.	
	Toscana	30/65	"Dino" kale. Rich, tender leaves have a softer texture.	
	Winterbor	60	Standard dark-green, curled kale.	
Lettuce	Green Forest	56	Green romaine. Slow-bolting and disease resistant.	
	New Red Fire	55	Heavy heads of red, frilly leaves. Heat tolerant.	
	Adriana	48	Heat tolerant green butterhead.	
	Two Star	51	Standard green leaf with great flavor. Bolt tolerant.	
Marigold	Durango Outback Mix	50	Extra-large blooms; colors ranging from yellow to dark orange/rust.	
	Queen Sophia	60	A favorite around the world. Attracts beneficial insects such as hoverflies.	
Mustard	Southern Giant	21/45	Mustardy hot taste mellows when cooked.	
Nasturtium	Empress of India	55-65	Scarlet flowers with very dark green foliage. An old-fashioned favorite.	
Pac Choi	Joi Choi	50	Tall, broad, heavy plant with dark green leaves. Tolerant to heat and cold.	
	Red Choi	45	Dark green leaves with maroon veins.	
Scallions	Nabechan	60	Japanese variety with a sweeter, more complex flavor.	
Spinach	Corvair	39	Very dark-green, uniform, oval leaves. Slow bolting.	
Strawflower	Apricot/Peach Mix	75-85	Tall, well-branched plants produce double flowers. Profuse bloomers.	
Viola	Helen Mount	60-70	Tricolor flowers in purple, yellow, and white.	
Zinnia	Benary's Giant Mix	75-90	Vigorous. Hold up well in summer rain and heat. Densely petaled blooms.	
<b>Section 1 Sub-Total</b>			Add up all the plants from Section 1 and divide by 6. This is the total number of 6-packs you are ordering (remember that you <i>always</i> round up).	
			Multiply the number of 6-packs from the previous line by \$5. This is your Sub-Total for Section 1.	

### Instructions for Section 2:

This section lists plants we grow in 4-packs. While they are grown in 4-packs you are ordering **individual** plants. You **do not** need to buy four of anything; you are free to mix and match any plants from **within this section**. The catch is that the pricing for these plants is \$5 per 4-pack. At the bottom of this section you'll add up all the plants you've ordered and divide by 4 to determine the number of 4-packs. You are charged for all full **or partial** 4-packs, so you might as well fill them all up.

## Section 2

Crop	Variety	Days to Maturity	Description	# of Plants
Cantaloupe	Halona	73	Earliest Eastern variety	
Corn	Vision	75	Yellow super sweet.	
Cucumbers	Little Leaf	57	Prolific pickling cuke.	
	Marketmore	58	One of the most dependable slicer/salad varieties.	
Eggplant	Beatrice	62	High yields of bright violet Italian-type.	
	Nadia	67	Traditional dark purple Italian style.	
	Rose Blanca	73	Pink and white Italian heirloom.	
Husk Cherry	Goldie	75	Small orange berry with a husk.	
Peppers, Bell	Flavorburst	67/87	Vibrant yellow/orange; excellent sweet flavor.	
	Lunch Box Orange	60/80	Very sweet mini sized orange snack peppers.	
	Red Knight	57	Large, early bearing plants with thick walled green to red bell peppers	
Peppers, Hot	Hot Rod	57/77	High yield serrano.	
	Jalafuego	70/93	High yield jalapeno.	
	Red Cherry	80	Large, red heart-shaped chili pepper.	
	Red Rocket	75	Early, quick drying cayenne	
Peppers, Sweet	Carmen	60/80	Sweet Italian frying pepper.	
Squash, Summer	Raven	48	Dark green, high yielding zucchini.	
	Sunburst	52	Yellow patty pan.	
	Zephyr	54	Slender fruits are yellow with faint white stripes and light green blossom ends.	
Squash, Winter	Honey Bear	85	Compact, mildew resistant acorn type.	
	Delicata	100	Very sweet cream colored fruits	

	Butterscotch PMR	100	Small butternut with powdery mildew resistance.	
<b>Sunflower</b>	Moulin Rouge	65-80	Deep burgundy petals	
	Soraya	77-91	Yellow branching sunflower.	
	Lemonade	85-95	Robust plants with fully-double, bright lemon-yellow blooms.	
	Teddy Bear	50-63	Dwarf variety with sunny, shaggy blooms.	
<b>Tomatillos</b>	Toma Verde	60	Early, large, flat round green fruit.	
<b>Tomatoes, Cherry</b>	Black Cherry	60	High yielding, sweet and robust.	
	Cherry Bomb	64	Classic red cherry tomato flavor - firm, sweet, and well-balanced.	
	Sungold	57	Great tasting cherry; our most popular variety.	
<b>Tomatoes, Heirloom</b>	Black Krim	75	Bold, smoky flavor dark flesh.	
	Brandywine	78	Large tomato with a luscious flavor.	
	German Johnson	73	More vigorous, higher yielding Brandywine type.	
	Great White	75	Big yellow-white fruit w/ mild flavor.	
	Marbonne	69	A hybrid version of French heirloom Marmande, but with improved disease resistance.	
	Rose	78	Deep pink and smoother than Brandywine.	
	Striped German	78	Bicolor red and yellow fruit; most late blight resistant heirloom.	
	Stupice	52	Very early small fruit high yielding plant.	
<b>Tomatoes, Paste</b>	San Marzano	85	Classic paste tomato for sauce or canning.	
<b>Tomatoes, Slicing</b>	BHN-871	79	Determinate. Yellow variety, low acid determinate.	
	Big Beef	70	Indeterminate. Nice combination of size, taste and earliness	
	Defiant	70	Determinate. Mid-size slicer with high resistance to late blight.	
	Early Girl	50	Indeterminate. Popular early tomato with dense foliage.	
	Mountain Fresh Plus	75	Determinate. Able to tolerate cool and wet conditions.	
<b>Watermelon</b>	Sugar Baby	76	Small red watermelon.	
	Sweet Favorite	79	Oblong suitable for New England	

<b>Sub-Total for Section 2</b>	Add up all the plants from Section 2 and divide by 4. This is the total number of 4-packs you are ordering (remember that you <i>always</i> round up).	
	Multiply the number of 4-packs from the previous line by \$5. This is your Sub-Total for Section 2.	

**Instructions for Section 3:**  
 This section lists potatoes. You are ordering whole potatoes. Each potato can be cut up into pieces for planting. You want 1-2 "eyes" on each piece, so the number of pieces a potato can be cut up into varies.

**Section 3**

Crop	Variety	Days to Maturity	Description	# of Potatoes
<b>Potato</b>	Adirondack Blue	Early Mid-season	Deep purple skin with solid purple flesh.	
	Adirondack Red	Early Mid-season	Deep red skin with pink to red flesh.	
	Kennebec	Mid-season	Buff skin, white flesh.	
	Red Gold	Early	Red skin, white flesh.	

<b>Sub-Total for Section 3</b>	Add up the number of potatoes you've ordered and multiply by \$1. This is your Sub-Total for Section 3.	
--------------------------------	---	--

### Instructions for Section 4:

This section lists herbs that we grow in individual 4" pots. With the exception of parsley and rosemary, all of these herbs are perennial in Massachusetts. These plants are sold individually.

## Section 4

Crop	Variety	Days to Maturity	Description	# of Herbs
Lavender	Provence	120-200	Silvery leaves, traditional blue spikes, compact. Easy to grow.	
Oregano	Italian	90	Great for drying and cooking.	
Parsley	Flat Leaf	40-60	Pronounced flavor. Great in pesto.	
Mint	Peppermint	90-200	Roots vigorously; nice addition to hot or iced tea.	
Rosemary	Gorizia	80-100	Pine-scented, savory, culinary favorite.	
Thyme	Faustino	90	compact, culinary thyme	
<b>Sub-Total for Section 4</b>			Add up the number of herbs you are ordering from <i>this section</i> and multiply by \$5. This is your Sub-Total for Section 4.
